About the Exhibition

THE ARAB PHARMA MANUFACTURERS' EXPO 2023 - an exclusive pharma exhibition in association with AUPAM (Arab Union of The Manufacturers of Pharmaceuticals and Medical Appliances)

This is an excellent opportunity for stakeholders in the health sector to exchange information, products, services and ideas towards achieving the Health related Millennium Development Goals and other developmental initiatives in Jordan and Middle Eastern region. The 5th edition of APME 2023 is a perfect trade platform for Indian machineries and engineering equipments for pharmaceutical industry focusing central & middle Eastern market. Over 4000 pharma trade professionals from across the region including Jordan, Syria, Lebanon, Iraq and north African countries like Algeria, Morocco, Tunisia amongst others are expected to attend this exhibition.

Show Summary: ARAB PHARMA MANUFACTURERS' EXPO 2022

- The 4th edition of APME 2022 witnessed 115 exhibiting companies from 13 countries. Trade professionals from 25 countries visited the exhibition.
- PHARMA CONFERENCE - the concurrent event organized by AUPAM on Prospects of biosimilar industry and supply chain challenges in the Arab world.

Promising market of Jordan and West Asian region

The growth of the pharmaceutical market in this region is driven by several demographic factors like rapidly changing population dynamics, where populations are expanding, but also ageing. Government policy is also encouraging local manufacturing of drugs, as imports currently outweigh exports. In addition, the rise in the incidence of non communicable diseases and rising healthcare costs are likely to attract foreign investment into the continent, as well as the further development of domestic manufacturing capabilities.

Jordan is currently the only country in the Middle East with a positive pharmaceutical manufacturing trade balance, as it has a well-established industry and many years of experience, exporting reportedly 70% of its pharmaceutical produce, with a generic penetration of over 50% in its market.

Lebanon is considered a hub for high-quality healthcare services in the Middle East. The market size of the pharmaceutical sector stood at USD 1.82 billion in 2017 and is expected to grow at a CAGR of 5% to reach 2.3 USD billion in 2022-23. The number of pharmaceutical factories in Syria has reached 63, producing 5700 types of products. Pharmaceutical industry has become one of the most important pillars of economic and social development in Syria.

Iraq's pharmaceutical market is currently worth around \$3-4 billion; according to Business Monitor International, the Iraqi pharmaceutical market is growing at a rate of about 10 to 15 percent per year. The MOH has registered 8,600 trade drugs, and Iraq has 28 national pharmaceutical companies.

Indo-Jordan bi-lateral trade

India has significant exports to Jordan and features among the top 10 suppliers to Jordan however the bilateral trade balance has been in favour of Jordan as India imports significant potash and phosphate. Some of the major supplies from India to Jordan include petroleum and hydrocarbon products, medical devices, automobiles, etc. Engineering is one of the major sectors of bilateral trade between India and Jordan. India's engineering exports to Jordan for 2021-22 was valued at US\$ 104.4 million compared to US\$ 62.59 million during same period last fiscal registering a positive growth of 66.3%. Within engineering, India is among the top 15 suppliers to Jordan however, India's share is much less compared to its other Asian counterparts including China, Korea and Japan.

Opportunity for Engineering Industry

In 2020, 9% of Jordan's GDP was dedicated to healthcare services. The country also has almost 122 hospitals, 70 of which are private. There are also increasing incidence of asthma, cancer, diabetes, obesity, heart stroke, vascular disease, osteoarthritis, rheumatoid arthritis, and osteoporosis. Furthermore due to huge refugee influx from Syria, the country is facing heavy demands for medical resources. Therefore, expanding the reach of Jordan's healthcare services is a government priority. Hence, Jordan provides ample opportunities for medical devices and exhibitions such as "Arab Pharma" will help India consolidate its position.
