Leipzig, Germany, 7 – 10 March 2023

***Participate through EEPC India and enjoy substantial savings!***

## About the Exhibition

GrindTec 2023 is coming to Leipzig. The 9th edition of the International Trade Fair for Tool Grinding and Tool Machining has scheduled its next appointment for 7 – 10 March 2023 at a new location, Leipziger Messe. The event will occur at the same time as the Intec and Z trade fair duo.

GrindTec 2023 will be held under its new motto, "By users for users", displaying the latest products and technologies like machining systems for cutting tools, grinding machines, process technology, and technical services. Visitors representing the precision tool industry, metalworking trade, automotive industry and other sectors will attend the fair. They will have the opportunity to meet with international and local exhibitors, gain valuable know-how, and test and buy products and services directly at the event.

## Why GrindTec is so important

GrindTec 2023 will offer a comprehensive programme including interactive pavilions, specialized guided tours and networking spaces, live demonstrations and various supporting events. The expo will also feature expert-led lectures and forums on various industry-related topics.

## India-Germany relations

Bilateral relations between the India and Germany have been traditionally strong. Germany is one of the most important partners for India in Europe, both bilaterally and in multilateral fora such as the UN. It is a nation witnessing rapid and continuous technological advancement and has achieved a prowess in manufacturing. India therefore considers Germany as an important partner for economic tie who can contribute in the process of Indian economic development. Germany on the other hand also sees India as a regional and an aspiring global power, and a large market which provides an alternative to China. Germany recognizes the importance of India as a democracy with shared interest in multilateralism and in maintaining a rules-based international order.

## Trade in Engineering

Germany is one of India's largest trading partner in Europe. It has consistently been among India's top ten global partners and was the fifth largest trading partner in 2021-22. Merchandise trade between India and Germany was recorded at USD 24.8 billion in 2021-22. India's engineering exports to Germany for 2021-22 was US\$ 3.9 billion. India's exports of Industrial Machinery to Germany for 2021-22 stood at US\$ 889.6 million, registering a growth of 39% over 2020-21.

## Opportunity for Indian Engineering Industry in Germany

Germany is witnessing rapid and continuous technological advancement and has achieved a prowess in manufacturing. India therefore considers Germany as an important partner for economic tie who can contribute in the process of Indian economic development. Germany on the other hand also sees India as a regional and an aspiring global power, and a large market which provides an alternative to China. As our largest trading partner in Europe and 7th largest source of FDI, Germany offers substantial opportunity for Indian businesses, especially in manufacturing. Moreover, India's share in global engineering import of Germany is slightly over 0.50%. This necessarily reflects that trade is far below the potential level and ample scope is left for Indian exporters to explore the market of Germany.
